Helium Scraper.Standalone Software. Free 10-day trial. Purchase from \$99 and up. Helium uses HTML elements to organize data.

<http://Import.io> Online utility for scraping simple data pages. Allows you to change elements in URL strings to scrape multiple similar pages. Free account allows up to 500 queries of an individual URL per month (a scrape of 50 related URLs uses 50 of the 500). Paid accounts start at \$99 for 5,000 queries in one year. Free plan only allows access to five most recent query runs.
